

IDUG 2021 Dosimetry Training Course | 25th-28th May

IDUG would like to welcome you to our 2021 dosimetry course. This training is normally run as a one day session at the Spring BNMS meeting. This year we are running it virtually as four short lunchtime sessions from 12-2pm each day. Wholebody, organ and voxel dosimetry will be covered in presentations and workshops, as well as an interactive uncertainty session.

Day 1 25/05	MIRD methodology & development	Bruno Rojas Royal Marsden Hospital
	Workshop 1: Wholebody I-131 dosimetry	Jill Tipping The Christie
Day 2 26/05	Data acquisition & processing	Matt Aldridge Maidstone & Tunbridge Wells
	Workshop 2: SPECT dosimetry	Matt Aldridge Maidstone & Tunbridge Wells
Day 3 27/05	Workshop 3: Dosimetry for SIRT	Allison Craig Royal Marsden Hospital
Day 4 28/05	Interactive uncertainty session	Jon Gear Royal Marsden Hospital
	Dosimetry validation	Jill Tipping The Christie

Registration is free for iDUG members, sign-up at [here](#)
